Scientific Foundations of Medicine:	Tissues	Cells, Molecules, and Genes	Response to Injury	Neuroscience	CPP&T
--	---------	-----------------------------	--------------------	--------------	-------

	July	Aug	Sep	Oct	Nov	Dec	Jan	Feb	Mar	April	May	June
Year 1		Tissues: The Human Body		Cells, Molecules, and Genes: Cell Biology Biochemistry Genetics		Tissues: Cell and Organ Physiology Histology		Response to Injury: Cellular Pathology & Immunology, Microbiology				
		Health Care Disparities in America		P2S2		P2S2		P2S2				
Technology in Medical Education (T.I.M.E.)												

Year 2	Summer Research/Vacation	Neuroscience: Neurobiology, Neuroanatomy, Human Behavior		Clinical Pathophysiology and Therapeutics (CPP & T)			Independent Study		Fundamentals in Clinical Medicine		Clinical Clerkships Intersections Electives		
													Pharmacology
		P2S2		Scholarship and Discovery									
		Technology in Medical Education (T.I.M.E.)											

Year 3	Clinical Clerkships: Medicine, Surgery, Pediatrics, OB/GYN, Psychiatry, Neurology, Family Medicine Intersections Electives											
	Scholarship and Discovery											
	P2S2 threads											
Technology in Medical Education (T.I.M.E.)												

Year 4	Emergency Medicine Senior Clerkship Electives										Capstone Course		Graduation
	Scholarship and Discovery										Senior Scientific Session		
	P2S2 threads												
Technology in Medical Education (T.I.M.E.)
